Use of Non-GAAP Financial Measure Statement

In evaluating our business, we consider and use non-GAAP net profit/(loss) as a supplemental measure to review and assess our operating performance. The presentation of the non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define non-GAAP net profit/(loss) as net profit/(loss) excluding share-based compensation expenses and interest on convertible bond. Such adjustments have no impact on income tax because either the non-GAAP adjustments were recorded at entities located in tax free jurisdictions, such as the Cayman Islands or because the non-GAAP adjustments were recorded at operating entities located in the PRC for which the non-GAAP adjustments were not deductible for tax purposes.

We present the non-GAAP financial measure because it is used by our management to evaluate our operating performance and formulate business plans. Non-GAAP net profit/(loss) enables our management to assess our operating results without considering the impact of share-based compensation expenses and the interest on convertible bond. We also believe that the use of this non-GAAP financial measure facilitates investors' assessment of our operating performance.

This non-GAAP financial measure is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. The non-GAAP financial measure has limitations as an analytical tool. One of the key limitations of using adjusted net profit/(loss) is that it does not reflect all items of income and expense that affect our operations. Further, the non-GAAP financial measure may differ from the non-GAAP financial information used by other companies, including peer companies, and therefore their comparability may be limited.

The non-GAAP financial measure should not be considered in isolation or construed as an alternative to net profit/(loss) or any other measure of performance or as an indicator of our operating performance. Investors are encouraged to review the historical non-GAAP financial measure in light of the most directly comparable GAAP measure, as shown below. The non-GAAP financial measure presented here may not be comparable to similarly titled measure presented by other companies. Other companies may calculate similarly titled measures differently, limiting the usefulness of such measures when analyzing our data comparatively. We encourage investors and others to review our financial information in its entirety and not rely on a single financial measure.

SHENZHEN, China, March 18, 2022 (GLOBE NEWSWIRE) — Huize Holding Limited, (“Huize”, the “Company” or “we”) (NASDAQ: HUIZ), a leading digital insurance product and service platform for new generation consumers in China, today announced that its Board of Directors (“the Board”) has authorized a share repurchase program under which Huize may repurchase up to US\$5 million of its Class A common shares in the form of American depositary shares over the next 12 months, subject to relevant rules under the Securities Exchange Act of 1934, as amended, and Huize’s insider trading policy.
